

FROM THE DEPTH OF MY HEART...

Dearly Beloved,

Greetings in the name of our resurrected Lord Jesus Christ!

We thank God for His mercy and faithfulness all through this year. The nations rage and plot vain thing against God and His people, but the One who sits in the heavens laughs (Ps.2:1-4). Yes this is what happening right now in the world. We are hearing so many heart breaking persecutions against our brothers and sisters in Christ, uphold them in your prayers as the Early Church prayed fervently for the persecuted people. God can change the persecuting Sauls' into propagating Pauls'.

This is not the time to fear and tremble seeing the enemies hand against the God's children rather know your strength in Christ and the weakness of your enemy. Study all the miracles of God which He did for His children and let this build your faith. Don't make the devil big even in your imaginations. He is frustrated and famished in all his efforts against you. He knows that you are God's iron pillar and bronze wall and he can never prevail against you. He also knows how great your God is. Let this revelation dawn in your spirit TODAY!

The School of the Holy Spirit for men was successfully finished by the grace of God. Thank you for all your prayers and we are going to see the fruits of these three months shining and shaking the nations. We give all the glory to God for transforming the lives and changing them tremendously and empowering them for the greater work of God.

We are getting ready for the Supernatural Lifestyle Seminar in Mumbai. Pray for the mighty move of the Holy Spirit and for the prophetic utterance with signs, wonders and miracles. We want to see a great impact in the spiritual realm of this state and the Body of Christ must rise up with new vigor and walk in the supernatural like never before.

Get ready for the fasting and prayer for our nation from December 1st to 3rd. When the people of God humbled themselves before God for their nations, we had seen a visible change in the nations all through the history. Come and join with us for this wonderful festival of prayer and we will see the tremendous outpouring of the Spirit in a tangible way.

My wife Benita is going to minister in Patiala, Punjab from 7th to 9th December. If you are in and around Punjab come and receive the blessing. These days are going to be a mighty deliverance and breakthrough in your life, family and ministry. For details contact office.

Continue to pray for Europe ministry. We need a clear strategy from God and right people to work with. Pray for all the programs in this year and also for me and my wife, for our ageing parents, as well as for our leaders and staff. May the Lord Almighty establish your territory and make you a blessing to the nations. Be the head and never again the tail. Lend to nations and never borrow again. Let the blessings run before you and overtake you, in Jesus Name!

Your Loving Brother

Helps To Be Healthy

Dr. Ezekiah Francis

Never has the devil attacked the physical health of the ministers of God as today. Our Lord wholeheartedly desires perfect health and vitality for His servants. It is not God's will for His servants who carry healing to the nations to be unhealthy! The Bible says that the Lord delights to hear his people singing, '*Great is the Lord who gives health to His children*' [Ps. 35:27] How much He cares for His servants' health! But the believers often overlook the need to intercede for this aspect. As a result, many servants of God are subject to unnecessary diseases!

There are many reasons for the physical affliction of ministers of God. It is not all that easy to serve the Lord with power and anointing. They have to pay the cost for it. There are God's servants who have afflicted their bodies by fasting and prayer. The ministry is a battle with evil spirits. Such spirits do not leave except by fasting and prayer! Moreover, those who are used by God with signs and wonders have to spend many days in fasting and prayer. Some who have paid a price in their youth are shining brightly today, while others pay a price daily and bring blessings to multitudes. Some of God's servants have broken the laws of nature and been without food and drink for days on end. As a result they now suffer from severe stomach-ache and other ailments. Pray that the healing hand of Christ would reach out to touch and heal them completely.

Praying with tears for hours together can weaken the body. Further, it is natural to feel worn out physically when you intercede with a God-given

burden. Ephaphras was a prayer warrior who interceded for the churches. He was on the verge of death. Different kinds of food, contaminated water, keeping awake at nights, long and tedious journeys, differing climatic conditions and so on greatly affect the health of the ministers of God. God is able to safeguard his servants from these adverse circumstances. When God blesses the water and food, diseases are driven away. There are plenty of promises in the Word of God which assure us of protection against the '*terror of night or the arrow that flies by noonday and the pestilence that walks in darkness*'. We should claim these promises in prayer to move the arm of the Lord! He has asked us to pray like this "*Thus says the Lord, The Holy one of Israel, and his Maker. Ask me of things to come concerning the work of my hands, you command Me*" [Is. 45:11]. It is up to us to hold on to His promises and command perfect health on God's servants.

Willing spirit

Ministry is not for a lazy person. The Bible says '*cursed is he who doth the work of the Lord with slackness*'. On the other hand it is a blessing to be diligent in the service of the Lord. That is why we need to intercede that every servant of God would serve Him with a willing spirit. Only if the ministers have a willing and cheerful spirit, they can *teach the ways of God to the transgressors and draw sinners to the Lord* [Ps. 51:12,13]. A man of God is a soldier who endures hardship day and night in the battlefield! Will his body not grow weary? He is also like a wrestler whose body needs to be ready for rigorous training. He is like a hardworking farmer who labors in

his field. Good health is an absolute necessity for him! [II Tim. 2: 3 -6].

Will you not take on the responsibility to intercede for them?! When the priests and religious leaders of heathen god's live healthy long lives, is it right for the servants of the living God to languish in sickness and ill health?! Can we let mighty servants of God go to their grave at an early age? It is true that our servants of God sacrifice much more than other religious leaders and they suffer from the attack of the evil spirits. Many workers draw nigh unto death for the sake of their ministries! However, if the church of God sincerely intercedes with a burden, God will certainly have mercy on them. He will grant them strength and long life to carry on the work of God. Epaphroditus, was nigh unto death because of his demanding labors in the ministry. The Lord raised him up and restored him to good health because of the prayers of Paul and the intercession of the Church! As soon as the church heard that he was sick it entered into fervent prayer [Phil. 2:25-30] Later they were comforted to see him well. Probably the reason for the strength and long life of the ministers was the intercession of the early church.

Physical Suffering

The apostle Paul underwent much suffering. He was whipped often. He was caught in the perils of journey and his journeys were tedious! He labored much more than the others. He kept awake many nights and spent days on end in hunger and thirst! He fasted often too. Besides, he suffered in the cold and nakedness. Until he died as a martyr, what do you think sustained his body in the midst of such suffering? It was certainly the selfless prayers of the early church. We often find Paul pleading with the churches, *'Brothers, do pray for us'*. It could be the secret of his sustained strength. In spite of the lack of modern facilities and special care, the apostles went from strength to strength by the power of prayer.

Paul's resurrection

Once when Paul was stoned, he fell down as if dead. Those who were around him thought he had died. His enemies dragged his body on the streets like a dead dog and he bled a great deal. But the Word of God says, *"However, when the disciples gathered*

around him, he rose up and went into the city. And the next day he departed with Barnabas to Derbe" [Acts 14:20]

What a miracle!! It is almost a resurrection miracle! I wonder if the disciples stood around him and shook heaven and earth to bring him back. Perhaps the prayer and fasting of the church at Antioch brought him back to life! The miracle did not stop with bringing him back to life, his strength was renewed too! They did not have to carry him home! He stood up and walked briskly and the very next day he continued his ministry.

Yes, dear child of God, as long as there are intercessors, ministers will be healthy. The Holy Spirit is calling you to take up this glorious task! Pray that at the end of their lives, every minister will be able to say like Paul. *"For I am already being poured out as a drink offering, and the time of my departure is at hand. I have fought the good fight, I have finished the race, I have kept the faith"* [II Tim. 4: 6,7]

Peter escapes the sword!

Peter confidently says, *"Yes, I think it is right, as long as I am in this tent, to stir you up by reminding you, knowing that shortly I must put off my tent, just as our Lord Jesus Christ showed me"* [II Pet. 1:13,14].

Pray that God's ministers would say like Peter *'time has come to put off my tent'* before they go to be with the Lord! If the early church had not prayed for Peter, do you think he would have had the opportunity to say this? In the prime of his youth, Herod's sword would have killed him! He would have met with a gory end even before his ministry could blossom. Have you wondered why the Holy Spirit recorded *'when Peter was kept in prison, prayer was made without ceasing by the church unto God for him?'* in the Word of God? [Acts 12:5] I believe it is written to caution the church to intercede for the body and life of the ministers of God.

James

In the recent past we have lost many great ministers of God because of the lack of prayer support by the church. Let us rise out of our complacency atleast now! The Bible tells us that the early church was persecuted by king Herod. Apostle James was killed and the Jews applauded it! Immediately, Herod was encouraged and tried to kill Peter also. At once, the church of God unitedly engaged in warfare prayer and Peter escaped Herod's sword!

I wonder if James would have survived if the church had been a little more vigilant in prayer! My heart trembles to think that James was a ransom for the slackness of the intercessors! I firmly believe that the Lord takes His servants to His bosom in the fullness of time! Yet, my mind falters to think that the lack of intercessors for His servants compels God to take them away even before their appointed time! Please ponder over this.

Christ, the Head of the church seeks the cooperation of His body! We should not think that the Lord does everything according to His will! Of course, He does! While 'God's will' is one side of the coin, the 'Church's responsibility' is the other! I shudder to think that when we reach heaven we will be shocked to find that many ministers of God had untimely deaths because of the lack of intercession on the part of the church!.

Dr. Justin Prabakaran

Some years ago I ministered in a church in Kuwait. On the last day's meeting, I cried as I exhorted the Church to pray with a burden for the ministers of God in India! I told them not to send any money to India if they did not pray for the preachers there! The spirit of God constrained me as between sobs I told them, "If you do not pray for God's servants in India, you will be shocked to hear the news of their untimely death". Hardly a year went by! The Christian world was shocked to hear that Dr. Justin Prabakaran, a great man of God passed away in his forty first year! Only then I got to know that he was the one who had established that church at Kuwait. At that time, because of the Gulf war many Tamilians had come away to India, where they heard the startling news! They were thoroughly shocked!! When his body was laid out for the people to pay their last respects, I saw many tear-filled Kuwaiti believers file past..... In a flash I remembered my desperate cry a year ago as I pleaded with them to intercede for the servants of God!!! This great captain in God's army had led thousands to the Lord by proclaiming Him as the way, truth and life. He now lay lifeless on the battlefield! My mind still tells me that we could have saved him from death if we, the soldiers had rallied around him in intercessory prayer.

There is no dearth of people who sit in judgement

on these dear ones and dissect their lives long after they are gone! Many pass the verdict that those servants of God who are alive are in the centre of God's will, while those who have gone ahead had actually gone astray! Shameful, isn't it? We need intercessors to cry out like this "Lord did you not say, The harvest is plenty but the workers are few"; Can the few laborers that we have die young? Have mercy upon us". Let your heart weep when you hear of the death of a servant of God. When we heard that Dr. Justin Prabakaran passed away, many believers and sincere servants of God vowed to intercede more for the ministers of God! But as time went by, many of us lost our fervency!

Brother Shankar

It was the last week in the month of August in the year 1993! I was preaching in the School of Prophets at Coimbatore. One day the Holy Spirit descended powerfully in our midst! With tears streaming down my cheeks I said, "Let the church of God get down to intercessory prayer! Prayer is not only a channel of blessing! It has the power to decide between life and death; between victory and defeat. I had already said in the church in Kuwait that if the church did not intercede, we would lose great ministers of God and Bro. Justin Prabakaran passed away. Today I repeat! If we do not increase our intercessory prayers for them we are going to lose many of our beloved young servants of God". Sad to say, within a short span of twenty days, our precious evangelist Bro. Shankar passed away!

Thousands have come from darkness to light through his ministry. I was attracted to him and he showered great love and affection upon me! He often claimed to be a part of my ministry. He was very dear to me and my family. When we heard the news of his death, our whole family burst into tears! I was inconsolable. It seemed as though my heart would break! I shamefully admit that I, who had conveyed the prophetic warning to the church did not heed the warning!

After the funeral service, we returned to Madras with hearts filled with sorrow. In the train the Holy Spirit commanded me to write a book on the urgent need for the church to intercede for the servants of God. Did Brother Shankar die to challenge us to intercessory prayer? Yes,

my dear friends, I have poured out my heart in the form of this book that is in your hands now! With a broken heart I plead that you should intercede for the servants of God. I agree that some soldiers will have to lay down their lives on the battlefield. When many have fallen on the enemy's side, atleast a few will die on our side too!

But is it right for us to say like David, "*the sword would devour one as well as the other*" and loiter on the terrace of our houses?! This is the time when the church of God and its leaders should be on the battlefield! Can we keep silent now? Can you confidently say that you uphold all the servants of God known to you in your prayers? Can you say that your conscience is clear on that score? If not, make up your mind today and promise God that you will intercede for His ministers.

Sons saved by supplication

I have been healed of many diseases through the prayers of the children of God. I have been

delivered from the snares of death often. God alone knows how many times the prayers of my family and friends have delivered me from the attacks of the evil one. I whole heartedly believe that my intercessors are my greatest joy, treasure and crown in this world. Whenever I think of those who intercede for me, my heart overflows with a sense of gratitude! It is a fact that many ministers of God have escaped the jaws of death due to the intercessory prayers of the church. Often, the devil has tried to harm the life of Bro. D.G.S. Dhinakaran - a great prophet on the Indian soil! Every time satan laid his hand on this great man of God, the spirit of intercession gripped the church. Many days and nights my family and I have cried before the throne of Grace for him! I have often cried and told God, "Lord, you looked at the face of Job and turned the captivity of his friends! When you look at Brother Dhinakaran who intercedes for this country, you will surely bless this nation. Our country needs intercessors! He is one such intercessor raised by You! Spare his life dear God! Even if he does not run around doing Your ministry, atleast spare his life to intercede for

our country! Lord Jesus! Please extend his life!" The Lord has graciously raised him up more than what we could ask or imagine and is mightily using him in His ministry. There is no doubt that the secret of his health and strength today is the prayers of thousands of intercessors. Yes, our prayers preserve the servants of God. The Lord is inviting you to join the defense force of His servants. On the day of rewards, the Lord will grant the same reward to the intercessor as to the servant of God. Those who intercede for a prophet will receive the reward of a prophet. *"For who will heed you in this matter? But as his part is who goes down to the battle, so that his part be who stays by the supplies; they shall share alike"* [I Sam. 30:24]

When you intercede for the health of a servant of God claim promises of health and strength. Mention every part of his body in prayer and commit it

to God's protection. Bind any form of germs that might attack his body and release good health to him.

Evil spirits bring sickness

Evil spirits harm the bodies of the ministers of God. Some evil spirits attack the powerful ministers of God in their territories. These spirits seek to harm or even destroy them. Some ministers suddenly fall ill when they go to certain places to minister. Some servants of God or their families come under heavy attack immediately after a successful time of ministry. It is natural for evil spirits to get enraged at the Lord's ministry and attack the families of the servants of God with sickness. If the church of God keeps this in mind and intercedes, the banner of victory will be raised for the servants of God! Amen.

What you see is what you possess!

The Three White Killers

(White Rice, White Flour)

Rev. Benita Francis

Hope you enjoy better health and more energy as you started swimming, leaving sugar out of your diet, drinking enough fresh water, etc. I trust you feel stronger and healthier as you follow our health program step by step!

Think back! You had less headaches, back pains, fatigue and cold attacks, isn't it? Your immune system is picking up after being "delivered" from white sugar and so many toxic foods and beverages!

In the last chapter I warned you about the "Three White Killers": white sugar, white wheat, and white rice. We studied the dangers of white sugar, and I earnestly pray you were able to break any addiction to it!

This time let us start with a prayer. Ask the Holy Spirit right now to take full control over your mind, body, even your taste buds.

As I told you, I did this many years ago since as a teenager I did much destruction to my body by following different diets. These caused such malnourishment that I still have a bald spot on my head! It is a testimony of the destruction I caused and of God's healing power in my whole body.

Sometime last year, very suddenly I felt the Lord "closing my stomach" to white rice. I just could not eat it any more. My body was starving and craving for full grain food, whole grain wheat, beans, rye bread and such things. Only as I studied about white rice I understood why.

We will study white rice today, but the same

applies to white wheat flour or any other "refined", "polished", or "milled" grain.

In the 19th century, medical science was puzzled by a mysterious, fatal disease called **Beriberi** that ravaged mainly upper class people in Asia. It affects many systems of the body, including the muscles, heart, nerves, brain, spinal cord, central nervous system and digestive system and can lead to acute heart failure.

Beriberi literally means "I can't, I can't" in Singhalese. Its symptoms include fatigue, irritation, nausea, constipation, poor memory, weight loss, emotional disturbances, impaired sensory perception, weakness, pain and loss of feeling in the limbs, and periods of irregular heart rate. Edema (swelling of bodily tissues) is common. In advanced cases, the disease may cause heart failure and death.

It was at first attributed to poisonous vapors or to bacterial infections, but finally the cruel truth came to light.

One eye-opener happened in Java where chicken fed on white rice lost the ability to use their legs!!! Chicken fed on brown rice, where the grain still contained its bran and germ, remained healthy. In this way, scientists found that this crippling, killing disease called beriberi is caused by a deficiency of thiamine (vitamin B)!

Thiamine is resident in the rice bran, the outer covering that was removed to create the polished white rice preferred by Asians. So by polishing the rice, making it "more sophisticated", more beautiful, more storable and faster to cook, millions of people suffered unnecessarily tragic pains, crippling and even death!

God created our body in a very intricate way (Ps.139)! It requires many different vitamins, enzymes, minerals, fats, carbohydrates and other substances to work perfectly. Our wonderful Creator wisely stored all of them in the things He created for us to eat.

If we just would eat food as He created it, we would be very strong and healthy! God’s Word warns us even twice: “There is a way that seems right to a man, but its end is the way of death” (Pr.14:12; 16:25). That even applies to what man is doing in milling and polishing the grains God created!

What exactly is White Rice?

The difference between brown rice and white rice is not just color! Every white rice was once brown rice! A whole grain of rice has several layers:

Only the outermost layer, the *hull*, is removed to produce what we call **brown rice**. This process **avoids the unnecessary loss of nutrients** that occurs with further processing.

If brown rice is **further milled to remove the bran and most of the germ layer**, the result is a whiter rice, but also a rice that has **lost many more nutrients**. At this point, however, the rice is **still unpolished**.

Polishing removes the *aleurone layer* of the grain-a layer filled with **health-supportive, essential fats**. Because these fats, once exposed to air by the refining process, quickly become rancid, this layer is removed to extend the shelf life of the product.

The resulting **white rice is simply a refined starch that is largely bereft of its original nutrients**. Unfortunately, many people prefer white rice. The vast majority of rice eaters even consider brown rice as poor people’s food or animal feed!!! But science proves that **unprocessed grains, including brown rice, are healthier** than their refined counterparts.

The complete **milling and polishing** that converts brown rice into white rice **destroys 67% of the vitamin B3, 80% of the vitamin B1, 90% of the vitamin B6, half of the manganese, half of the phosphorus, 60% of the iron, and all of the dietary fiber and essential fatty acids!!!**

By law in the United States, fully milled and polished white rice must be “enriched” with vitamins B1, B3, and iron. But the form of these nutrients when added back into the processed rice is not the same as in the original unprocessed version, and at least 11 lost nutrients are not replaced in any form even with rice “enrichment.”

Refined, white rice leads to **malnutrition, obesity**

and diabetes mellitus. The body feels the lack of needed nutrients and craves more food. **You can be highly overweight and still undernourished!**

Beriberi is still common in people whose diet consists mainly of polished white rice! Beriberi is fatal if not treated and the longer the deficiency exists, the sicker the person becomes. Also extended periods of diarrhea or chronic liver disease, kidney failure and severe digestive problems can rob the body of many nutrients, including thiamine.

Most of the symptoms can be reversed and full recovery is possible when thiamine levels are returned to normal by administering thiamine hydrochloride and maintained with a balanced diet and vitamin supplements as needed.

Do you suffer any of these symptoms? Do you know people who do? Please have a close look at their food intake! A balanced diet with unrefined cereals and fresh foods, particularly fresh meat, legumes, brown rice, whole grains, seeds, nuts, raw fruits and vegetables, yogurt and milk that contains all essential nutrients will prevent a thiamine deficiency and beriberi.

The white rice that most of us eat consists of mostly carbohydrates, with the nutrients stripped off in the milling process. Excessive carbohydrate intake leads to sugar imbalance and adult onset diabetes mellitus. Carbohydrate consuming is also addictive.

Grains of brown and polished white rice. In polished white rice (left), most of the bran and germ has been milled away, resulting in an improved flavor (at least to some people).

The grains appear slightly more slender, with the apical germ region ground off giving the grains a slightly pointed appearance (red arrow). In white rice you are eating mostly the carbohydrate-rich endosperm tissue which lacks the vitamin B, of the bran and germ.

Even though it is less nutritious, white rice is still preferred by Asians, and is the most popular grain served in Chinese and Japanese restaurants in the United States.

Longitudinal section of a rice grain showing the

embryo (germ), pericarp (bran) and endosperm. In polished white rice, the nutritious germ and outer bran layers are removed. The seed coat is completely fused with the pericarp and is not visible in this image as a distinct layer.

Solutions

1) In some parts of the world, and even in the tamil language, the word “to eat” literally means “to eat rice.” I know what I tell you here is not easy for you to accept. Especially your taste buds will be severely challenged, so give your taste buds once again to the Lord! Now you need to allow your spirit man to take over and subdue your flesh!

You have a God-given responsibility to care well for the temple the Lord has given you!!! A spiritual person cannot allow any addiction, not even the addiction to white rice!

To help you understand the severity of the difference, I suggest you do a simple experiment. Just plant some kernels of white rice and some kernels of brown rice in some soil.

You will see how the white rice just decays, while the brown rice grows into healthy plants! Now think about it! Would it not be much healthier for your body to eat “living food” than “decaying food”?!?!?!?

2) Take some effort to find unpolished, brown rice and other whole grains. **Whole grains** are cereal grains which retain the bran and germ as well as the endosperm, in contrast to refined grains which retain only the endosperm. Common whole grain products include oatmeal, popcorn, brown rice, whole wheat flour, sprouted grains and whole wheat bread.

Eating whole grain like brown rice will protect you from cancer, diabetes, cardiovascular diseases, heart attack and stroke, nervous system damage, migraine, gall stones, high cholesterol and blood pressure, constipation, childhood asthma, arteriosclerosis, obesity and premature death! Don't you think the benefits outweigh by far the initial adjustment troubles with the different taste!?

3) If all this is too difficult for you, at least add vitamins like B-complex to avoid the greatest havoc. Of course, this can in no way be compared to eating food as

God created it for you! Your body will still feel the lack of needed nutrition and make you crave for more and more unhealthy food.

4) During the adjusting process, you can use parboiled rice. It is a little healthier than normal white rice because nutrients were forced into the kernel by boiling the rice before husking.

5) Eat more whole-wheat chapattis with their delicious side-dishes of beans, nuts and grains.

6) Don't worry about the starting troubles! In the beginning, you might feel some discomfort in your intestines that are not used to so much fiber. That is a very positive thing, so don't be alarmed!

Your intestines are being swept as with a broom. Toxic waste is taken out quickly to improve your general health and well-being. Even some gas production is normal as you change to whole grain and brown rice. Your system is adjusting to a healthier lifestyle.

7) Please don't take these admonitions lightly! The Holy Spirit Himself burdened me to warn you

about the dangers of lack of knowledge in nutrition! Almost daily, we get heartbreaking news of cruel diseases attacking God's servants.

God's people are destroyed for lack of knowledge (Hos.4:6)!

Even in your food habits, please don't give place to the devil (Eph.4:27)! You cannot blame satan for entering doors you yourself opened with unhealthy food habits!

The good news is: No matter how much havoc you caused to your body until today, TODAY is the day of salvation and deliverance!

Your body can be restored to full health, vigor and strength!

Believe that you can break the bondage of eating white rice by the power of God's Holy Spirit.

Believe that you can do ALL THINGS through Christ who strengthens you (Phil.4:13)!

You will reap the benefits of a longer, happier and healthier life!

TESTIMONIES

I come from Kancheepuram, Tamil Nadu. I didn't have money to come for this STC. My pastor bore all the expense to come here. I was severely hurt in my legs and my wife and son too hurt on the way back from our ministry. Though I could walk after four months, my legs were bent and could not walk properly, but when Alex brother prayed during the 4th day session, my legs were straightened and I could walk properly, could run and even jump. Let all glory be to the Name of God.

I am the student of the previous batch of School of Holy Spirit. I could realize a change in my ministry. In the school Alex brother told a phrase "We can cancel the cancer". God gave me the opportunity and privilege to heal two cancer patients after the school. I could see demons flee away. Also God helped to raise a dead in my ministry front. Berachah Ministry is a great blessing for me. And I am sure each and every student come to school here will be equipped to do wonderful ministry. The persons whom I introduced and got trained by this ministry are doing mighty ministries for God. – John, Kerala

I am from Sri Lanka. When I came to the school of Holy Spirit in 2012, I was in helping ministry only and was troubled because of the happenings in our country. When in school during the curse breaking session, my 2years old son, who was there in my house, started to speak in tongues. Now we are doing wonderful ministry with many signs and wonders, to list out a day is not enough. To mention a few, a lady was raised from death as I was delivering the same words Prophet Ezekiah Francis taught us during the school; The Gifts of the Holy Spirit are operated in believers when we minister through our ministry "Berachah Arise Ministry"; My son prophesy what is going to happen while we pray before the meetings; Demons flee away when my son just say 'go!'. I can assuredly say that who all come here God will use them as a family for His work.

I own a boutique and two days before coming to the seminar all our staff members just stopped abruptly. I had a great struggle to come here. Even my partner said not to come STC as she felt my presence is needed. But I told all my problem will be solved if I come here and the problem was solved in the 2nd day and all my staff are back to work. Through the curse breaking and soultie breaking sessions God delivered me from all the bondages I had because of my family problems. Also when Prophet Ezekiah Francis led in anointing, God exactly spoke what all I prayed for and filled me with the fresh new anointing with great Joy. I could feel a crown kept on me and the same time the one nearby confirmed me with the Word. First time I could operate the gift of prophesying. Also I could clearly understand my Calling. – Sophia, Coimbatore.

I was very nervous about the crowd and south India. Even I called my husband to book tickets back home. But in a vision I saw Jesus draw near me when a sheep fell dead. Then I decided to stay. Before the curse breaking session (and I never heard before about the curse breaking), Rev. Benita Francis told suicidal thought is also because of curse from forefathers. In my family four members have already committed suicide and died. When sister said that, I felt the anointing and I started to speak in tongues for the first time. Even my eyes were burning which is completely healed during the session of Sis. Sudha and Bro. Alex on Holy Spirit, and when I called my husband he told, he too felt the same feeling and deliverance on the session time. I am also clarified about my calling and I decided to work among the under privileged women of my area. – Kavitha, Delhi

Praise the Lord. God sent me to India. I am here for the past 5 years and I am married in India. I am into ministries with my husband and the team. But the best decision I made in the past 5 years is the decision to come here. God knew I have to be here. Last 5 years I had to undergo many changes like culture, weather as India is just opposite of my country. I was drained physically, emotionally and spiritually. I used to be depressed for months as I didn't understand the Calling and decided to go back to my country with my husband. I really thank Prophet Ezekiah Francis for opening my eyes to see the work of Holy Spirit in Calling and helping me to run this race for God. – Luis, South Africa

We are here as a team. I would like to say as God spoke to Moses face to face, He had spoken to us throughout these days. God has brought all of us here at the right time, to each and every one He has talked through Prophet Ezekiah Francis and Team, and God is sending all of us for His Divine work to fulfill our Calling. Prophet Ezekiah Francis clarified my calling and talked about Prophetic Ministry. A sister came with me was struggling with menstrual problem for 7 years, is healed now and could commune with God with Tongues. God touched all our team members and sending us to do God's work efficiently. Also I am sure many Moses like servants of God are going to be raised from this place. They will come in the right time, equipped and will be send to do mighty ministry. I thank Prophet Ezekiah Francis from my heart and thanking God for all the Spiritual Leaders of this ministry. – Ps. Daniel, Billai, Chhattisgarh

I am privileged to attend this STC and received Joy Anointing on the 2nd day while Prophet Ezekiah Francis was teaching. And I was the person who teaches against the Joy Anointing. I was sitting at the very back because of the fear. All were laughing around me and I moved to a place where some old people were sitting, but they too started laughing. I was perplexed and asked God "Is this really true?". Suddenly I heard the voice of God saying "Laughing is better than crying". Many are crying in this world, and God has given a wonderful opportunity to laugh. Praise Jesus. – Bro. Anish, Kerala.

I used to hear Prophet Ezekiah Francis messages in 1999. Hearing him saying that he prays for perishing souls for 2 to 3 hours, I was ignited and started knocking doors to preach Gospel. I thank God for hearing his voice directly. Truly I came to this place with an emptiness of heart and struggles in my ministries. I used to pray for many things. At the time of curse breaking and soultie breaking I could feel the deliverance and great Anointing. God confirmed my Calling. during the session by Sudha sis, I could see a vision and God confirmed me about the ministry we are going to do in our country through us. – Pastor from Sri Lanka
